

A letter from Miss Cathy!

My dear former students, parents and well wishers:

My heart is so light and full of joy knowing that such amazing, giving people are still a big part of my life and memories. How gifted I am to have known so many wonderful people over the years who have supported and loved me, I truly am blessed. I could not have done it without all of you and the outpouring of support you have always given to me, and you still continue to do so.

My heart swells knowing that generation after generation continues to expand our family of dance and with people like you it will continue to grow even more spreading my teachings now in the hands of who better, than Miss Michelle? Miss Michelle has become the epitome of all I dreamt that Cathy's Dance Studio would become. Her vibrance, drive, creativity, giving, love and talent are second to none and I know that everything I believed in she has inherited, and more.

In closing, you truly are a driving force in my life and know that in the hands of Miss Michelle you will all go forward and have wonderful rewarding lives in whatever capacity you choose. One day soon, now that I have retired, you will all be surprised as you enter the studio and I will be there to greet you. I look forward to that day when I visit you all and to get to know the wonderful people that your letters so richly embellished.

God bless you all and much love.

Miss Cathy
